

Capítulo 5
Proyecto—un lugar de mi niñez

For this project you have two choices—a simple slideshow or a poster. In either case you will be “describing” one of three places from your childhood—a daycare, a playground or a kindergarten. (Note: I wasn’t there; you can make up some elements.)

Title (3 choices): “La guardería infantil”, “El patio de recreo” o “El kindergarten”
Credit: "Hecho por:"

Either way, you must picture at least 12 items from that setting (can include a few people as well). You will write three sentences describing what you liked or didn’t like, what you played with or on and what there was in the place you chose (key words: gustaba(n), jugaba & había).

While most of these items will be in the “yo” form as it’s about your childhood, you may use at least one that included someone else (thus giving the nosotros) for extra credit. If you are doing the poster, you will label pictures and include your sentences on the bottom. If you are doing the slideshow, you will use the sentence to label each picture, but you’ll use the same three sentences, just changing the word to identify the picture.
