

Describing what's on at the movies

For your next assignment you will be creating a movie lineup or television guide. In my absence for the next two days, I want you to do some prep work for that. I'd like you to each choose a favorite and/or classic movie in each of the following categories:

- Romance
- Musical
- Horror
- Science Fiction
- Adventure
- Western
- Mystery
- Animated

For each one, find out who wrote, directed and starred in it.

Then, look at the way current movies are pitched (how those descriptions look on NCG or Celebration Cinemas sites). You will not be able to be as creative perhaps, but what types of info are included in those. Next, try to compose two or three sentences to describe the basics for each film you chose--writer, director, actors, genre. We'll work from there on Wednesday.
