

Presentación--Capítulo 6  
Descripción de mi dibujo

Create a picture of two characters, at least one must be a female. It needs to be in color and include some props or thought bubbles to indicate likes or dislikes. It can NOT include any words (nor letters nor numbers) in English or Spanish on the picture. Be sure that your characters are wearing colorful clothing.

In your presentation, you will tell us about the people in your picture so that we can guess which picture is yours. Your presentation must have a prepared script that I can look at. All verbs will be underlined and all adjectives will be highlighted for ease in grading quickly. (I will collect it after your presentation). Check the rubric for what must be included. It should be no less than 30 words long (probably significantly longer).
